

Training and Professional Development

Person Centred Care Planning

This half day session aims to prepare and support all staff to improve the quality of record keeping and documentation for person-centred care planning in line with regulations, statutory requirements and best practice

COURSE OBJECTIVES

- To discuss the importance of person-centred care planning
- To understand the different areas of care planning and the purpose and overview of holistic care planning
- To explore key principles of best practice.
- To have the opportunity to discuss and explore challenges & barriers to person-centred care/risk assessment.
- To reflect on our accountability & responsibility in relation to care delivery & providing evidence of our care.
- To understand the rights of the individual and the importance of 'Duty of Care, Confidentiality, Candour and the Duty to Consult'
- To understand the importance of consistent and collaborative working as appropriate for the individual with choice, consent or best interests under MCA as required.

COURSE NOTES

- Some group work and discussion is incorporated into the session.
- Attendees are encouraged to bring templates of their existing documentation as a reference point for group discussions.
