Training and Professional Development

Dementia Awareness

(Includes awareness, types & diagnosis)

This aim of this half day course is to bring a fuller understanding of dementia and is suitable for all staff within care provisions, including maintenance staff, housekeeping and kitchen staff on induction and as a refresher

COURSE OBJECTIVES _____

- To gain/review knowledge of the different types and presentations of dementia
- To be able to recognise possible signs and symptoms of dementia and awareness of misdiagnosis
- To gain awareness of the need to respect individual differences, whilst promoting independence, well-being and choice to optimise health and well-being for people living with dementia.
- To be able to understand the effects that dementia may have on communication & behaviour
- To discuss the importance of providing an encouraging & supportive environment and evidence based approaches to dementia care
- To discuss approaches, strategies and techniques for supporting residents in a person centred way

Course notes _____

- Please contact us if there are any elements of the above learning objectives that you would like tailored to your specific service or staffs' learning needs.
