# Risk Assessment & Management Training

**An essential part of Health & Safety and Care Planning  
within any work environment:**

**This course provides an interactive opportunity to identify risk and hazards in the workplace, develop a process to evaluate risk and clear strategies to positively manage risk and to learn how to document accurately.**

## COURSE OBJECTIVES

- To understand the principles of The Health & Safety at Work Legislation and the HSE (Health & Safety Executive) best practice guidelines and requirements
- To explore the importance of risk assessment, the process and responsibilities
- To discuss the concepts of hazard and risk and different categories of hazard.
- To identify areas of risk in your workplace
- To know how to document and complete risk assessments, the review process and to understand expectations of positive risk management

## COURSE NOTES

This session will involve group work, scenarios and activities within the session, can be delivered inhouse or via zoom
